<sup>1</sup>INTRODUCTORY INTEREST RATE (for new purchases and balance transfers) – From the account-opening date, the introductory interest rate will be 0.00% APR Fixed for six months. After the introductory period, your interest rate is a variable rate and is determined by a combination of the Prime Rate (which may vary) added to a margin (which does not change). Because the Prime Rate may vary, your variable interest rate will go up or down if the Prime Rate changes. The following rates on the account are variable: Non-Introductory Purchase rate; Non-Introductory Balance Transfer Rate; Cash Advance Rate. More information is available in your account agreement.

~Your APRs are variable, except the Penalty interest rate. They increase or decrease with the prime rate. From the 1st day of each billing period, we apply APRs based on the published prime rate 10 business days before the beginning of that billing period. To determine your APRs, we add to the prime rate: 7.00 – 16.00 percentage points for purchases, balance transfers, and for cash advances, based on your creditworthiness.

### What do I have to pay and when?

We will send your bill to the address on file. You agree to pay all authorized charges on the bill, including interest and fees. You agree to pay us for charges that we allow over your credit limits. You must pay at least the minimum payment by the due date stated on each bill. Your minimum payment will be greater of 3.00% of your statement balance or \$25.00.

We choose which balances to pay with the minimum payment. We apply payments above the minimum to balances with the highest APRs first.

You must pay in U.S. dollars, without restrictive terms, and according to all the other standard payment instructions. Mailed payments should be sent to PO Box 650789, Dallas, TX 75265-0789.

### What if I pay late?

We will assess a late fee if we do not receive at least the Minimum Payment Due shown on your Statement by 15 days after the Statement due date. The late fee is calculated by multiplying the delinquent amount by 5.00%, with a minimum amount of \$9.36 and a maximum amount of \$30.00.

In addition, if you make a late payment, you will be in default, and you may be subject to interest rate increases.

\*If you are late three or more consecutive months, the APR will increase to 18.00%. If you make six consecutive on-time payments your APR will return to your stated APR.

### How is interest calculated?

We calculate interest using the average daily balance method. This means that interest compounds daily. Your due date is 25 days after the close of each billing cycle. We will not charge you interest on purchases or balance transfers if you pay your full account balance by the due date each month. This is called a grace period. If you do not take advantage of the grace period, we will charge interest the day your purchase or balance transfer post to your account. You pay interest on cash advances from the date of the transaction.
